Dear Mr Allen

NEW RESIDENTIAL ZONES FOR VICTORIA

Thankyou for your letter of the 18th February 2008 advising of the new initiative for Victoria's residential zones.

Council considered this initiative at its meeting of the 7th April 2008 and resolved as follows;

1. That Council does not support the introduction of 3 new zones as proposed and is concerned in particular with the proposal to remove or reduce current advertising and appeal provisions.
2. That Council wants to determine the location and form of residential development generally as identified in its Housing Strategy and Neighbourhood character Study incorporated in its Amendment C67 submitted for authorisation (and still pending) in January 2007.

Further details of Council's position are outlined in a joint submission from the [REDACTED]

Yours sincerely
