Subject RE: New Residential zones submission

Actually Jim, I have just found out that the Council wanted two changes made to the submission, as below:

- 1) Council is **opposed** to any reduction in appeal rights, rather than just concerned about reduction in appeal rights.
- 2) Climate change issues need to be considered in relation to Rescode (I haven't yet received the exact wording for this change but will send it through to you as soon as I receive. [REDACTED] is involved in some residential/climate change work and want this reflected in our submission.)

Thanks
